DX Friend,

It is a pleasure to confirm your report of KCOW's signal on 1400 kc January 3dr from 1;45 to 2;00 am MST.

I would like to thank you for geting our f/c printed in DX NEWS and also for the copy.

Im sorry to report that our power is still 250 watts. Wehad hoped to be on the air with 1000 watts last month but have not recieved our CP from the FCC yet although it has been approved.

Our studios and transmitter are located at the edge of Alliance at 1100 W 3rd st.Our equipment consists of a Gates console fed into a Kahn symmetric peak,Gates stay level,Gates limiter,and Gates 250 yg transmitter. Also gates monitors. The transmitter will be replaced with a Collins 20-v-3 1000 wattday time 250 night,also incorporated will be automatic conversion to Conelrad frequency.

Frequency measurements are conducted the first wednesday of each Quarter ,1st-4th-7th and 10th months.

Our antenna is a quarter wave current fed 180 ft mounted on a5ft base located about 750 ft from the transmitter.

Due to the notice in DX NEWS i have recieved reports from San Diego Calif, Amarillo Texas, Billings Montana, Berwyn Illinios,and Cleveland Ohio . Amarillo reported a reading of s/9 on a Hammerlund HQ 180.

Weather conditions at the time of this test - clear skys -calm wind- temperature 24 Degrees.

Am pleased to add you report to,our DX files and hope this confirmation to be satisfactory.

I remain yours for happy DXing

Bob Carr
